--------------	---------

Welcome!

It is with great pride that we offer you our Spring 2006 Product Lineup! While the world around us is changing at a drastic pace, we are very proud of the fact that **Weaver Models** continues to produce O Gauge Freight Cars, Diesel Locomotives, Scalecoat Paint and various Railroad Accessories right here in our Northumberland, PA factory.

It is also with great pride that we have once again maintained current pricing and have not increased the cost of our product! Made in the USA and no price increases...what more could you ask for!

Two new products are joining our extensive line. Please help us welcome the **40' PS-1 Plug Door Box Cars**, (starting at \$34.95) which are featured on this page.

Also, help us welcome our new **RoadRailers®**, (starting at \$39.95). You will find them featured in the Center Spread.

Central Of Georgia and Western Pacific (page 33) are joining our stable of VO1000 liveries! We are pleased to offer Engineer On Board™ Speed Control in this run of VO1000's at no additional cost to you!

Our **Scalecoat Paint** line recently welcomed the addition of 4 new colors to our standard line of paints, plus 20 Restoration

CouplerMate™

MADE IN THE

Combine over-the-road and on-the-rail transportation with our new RoadRailers®! They are cleverly designed to transport freight over the road and above rail track when set on "Bogies". These "Bogies" eliminate the need to lift the trailers for placement onto rail cars, drastically reducing the risk of cargo damage from shifting freight during handling of Conventional Trailers. RoadRailers® also provide a slack-free ride on the rail, further reducing the risk of cargo damage. The RailRoader® trailer features identical interior dimensions and a tare weight that is only 600 lbs. heavier than Conventional Trailers. It's unique air-ride suspension system reduces the trailer weight by hundreds of pounds. At the onset, the Federal Railroad Administration approved a length of 75 RoadRailers®, which was eventually increased to 100 units. Today you may see as many as 125 RoadRailer® units in a consist!
